EDUCATION

Bachelor of Technology CSE Rewa Engineering College

08/2019 - 05/2023

8.03 CGPA

Higher Secondary Spring day School

03/2017 - 05/2019

88.6%

WORK EXPERIENCE

Software Developer Trainee OpenSense Labs

07/2023 - 09/2023

Bhopal MP

Achievements/Tasks

- Proficient in HTML, CSS, SCSS, BEM, and SMACSS, contributing to visually appealing web interfaces.
- Developed dynamic JavaScript comment system, enhancing user engagement.
- Acquired PHP and MySQL skills for robust back-end development.
- Acquired Drupal for basic site building.

Web Developer Intern Shunya.EK

08/2021 - 11/2021

Achievements/Tasks

- Developed "Pari.css" library from the ground up, featuring custom-built styles for various HTML components.
- Crafted comprehensive "Pari.css" library encompassing elegantly designed beauty, media, container, and interactive elements.
- Designed a versatile web component library encompassing default CSS properties for HTML tags, semantic elements, containers, and interactive components including accordion, dropdowns, sidebar, and navbar.

Web Developer Intern LetsGrowMore

07/2021 - 08/2021

Achievements/Tasks

- Built a fully responsive static webpage from the ground up.
- Developed a profile page using React, integrating an API to fetch employee profiles, while enhancing user experience with a loading animation.
- Completed both the tasks in one month only.

SKILLS

C++

HTML

CSS

SCSS

Javascript

ReactJS

Git

Linux

SQL

PHP

NodeJS

PERSONAL PROJECTS

RCKART (Tech Stack : HTML,CSS, Bootstrap, Javascript, Nodejs ,Mongodb)

- Created a responsive e-commerce site from scratch.
- Included user authentication, product pages, cart management, and order placement.
- Developed additional features to optimize user experience.

PERSONAL VOICE ASSISTANT(Tech Stack :C++)

- Developed a C++ voice assistant that executes user commands through voice input.
- Incorporated features such as opening YouTube, Excel, Word, Paint, Google, etc.
- Secured access with password authentication for enhanced privacy.

REACT CHATBOT (Tech Stack: ReactJS,HTML,CSS)

- Developed a React-based chatbot, showcasing proficiency in frontend development and user interaction.
- Employed state-of-the-art technologies to ensure real-time, responsive communication and user satisfaction.
- Highlighted adaptability and innovation through the implementation of a modern chatbot solution within the React framework.

LINE FOLLOWING CAR USING ARDUINO UNO (Tech Stack :Arduino Software, C)

- Led a team of four in an IoT project developing a line-following car.
- Designed and assembled the project, focusing on hardware setup and IR sensor configuration.
- Utilized components including Arduino Uno, IR sensors, L293D Motor Shield, and 2WD Car Chassis, and wrote code in C language for autonomous line-following functionality.
